

TECHNICAL DATA SHEET – HPC 209 SP1 SECURITY PAINT

DESCRIPTION:

A non-oxidising, non-setting coating based on selected coloured pigments in a petroleum derived base.

ADVANTAGES:

SP1 Security Paint is constantly greasy and mobile providing a deterrent to intruders, burglars, vandals etc. and is also a safeguard against unauthorised entry into dangerous areas such as chemical stores, electrical installation etc.

COLOUR:

Black, Dark Grey, Green, Red

PACK SIZE

Supplied in 5, litres

COVERAGE RATES:

2 m² / Litre at 350 microns.

SURFACE PREPARATION:

Clean down metal surfaces thoroughly with a wire brush. Absorbent surfaces such as concrete, cement, asbestos, asphalt/felt or similar substrates should first be sealed, using Nu-Guard Masonry Paint. High gloss or very smooth surfaces should be thoroughly abraded, scraped and sanded to assist adhesion.

APPLICATION:

By short haired brush

DRYING TIMES:

Non-setting.

STORAGE:

Store away from direct sunlight and sources of heat. Protect from frost.

SHELF LIFE:

12 months (in original sealed container).

HEALTH & SAFETY:

Refer to MSDS
