

TECHNICAL DATA SHEET – HPC 222 HS1 HYDRON STRIP

DESCRIPTION:

A specially formulated blend of products and biodegradable detergents developed to remove multi-layers of paint from residential and industrial buildings where a class 0 substrate is required.

ADVANTAGES:

Will effectively remove multi-layers of paint and varnish. The extended dwell-time allows effective penetration into the paint layers resulting in an efficient paint removal process.

USES:

HS1-Hydron-Strip is ideal for use on walls and soffits to strip multi-layers of paint from residential and industrial buildings to achieve a class 0 substrate.

PACK SIZE

Supplied in 5 litres

COVERAGE RATES:

Should be applied at 2.4 m²/Litre (12m²/ 5 Litres).

APPLICATION:

Apply **HS1** liberally to the affected area using a clean brush. Always apply generous even coats do not try and spread the product too far, as this will result in poor penetration.

Allow the product to do its work do not remove too quickly and do not allow the surfaces to become dry during treatment.

STORAGE:

Store away from direct sunlight and sources of heat. Protect from frost.

SHELF LIFE:

12 months (in original sealed container).

HEALTH & SAFETY:

Refer to MSDS
